

## Geography Curriculum Impact.

At St Austin's we believe our children will leave;

- Having enjoyed exploring Geography.
- With a secure understanding of Geography.
- How to be compassionate members of the Catholic community.
- Feeling prepared for the next stage in their learning journey.
- Having grown in self-confidence and self-belief.
- With a sense of pride of who they have become.

Children will also have developed key Geography skills and will leave us having developed their knowledge and understanding. They will;

- Have learnt how to use maps to locate and describe features of a location and answer questions such as:
  - Where is this place?
  - What is it like? (And why?)
  - How and why is it changing?
  - How does this place compare with other places?
  - How and why are places connected?
- Have a geographical knowledge, skills and vocabulary to help them explore, navigate and understand the world around them and their place within it.
- Have had the opportunity to develop their fieldwork skills.
- Express well balanced opinions, rooted in very good knowledge and understanding about current issues in society and the environment.
- Develop progressively as they move through St Austin's, preparing them to become competent geographers in the next stage of their learning and adult life.
